Summary

Platform-focused Software Engineer with 2+ years of experience owning infrastructure and product features end to end. Currently on the Production Engineering team of Workday's Developer Platform, building automation and tooling for production readiness. Previously ran Kubernetes-based microservices, CI/CD pipelines and secrets management (HashiCorp Vault) alongside high-traffic product work at Klenty. Shipped 30+ OAuth-backed SaaS integrations in Pipedream's open-source registry. Strong in Node.js, TypeScript and Golang, with a track record of shipping reliable systems and developer tools.

Technical Skills

- **Languages:** Golang, TypeScript, JavaScript (ES6+), Python, Java
- **Platform & Infra:** Kubernetes, Docker, NGINX, AWS (EC2, S3, RDS), CI/CD pipelines, HashiCorp Vault
- **Backend & APIs:** Node.js, Express.js, Gin, Kratos, REST, GraphQL, RabbitMQ, microservices, event-driven systems
- **Integrations & Auth:** OAuth-based SaaS integrations (Google, Slack, Zoom, Salesforce, HubSpot, Pipedrive), Firebase Auth
- **Databases:** PostgreSQL, MySQL, MongoDB, Sequelize
- **Frontend:** React (TSX), Angular, Redux, TanStack Query
- **Tools:** Git, GitHub, Sentry, Postman, Jira, Webpack, Rspack, Claude Code, Cursor

Experience

Workday | Sr Associate Software Development Engineer · Chennai, India · Jul 2026 – Present

Production Engineering, Developer Platform (Sep 2026 – Present)

- Build automation and tooling that ensures production readiness of Workday's Developer Platform.

Pipedream R&D (Jul 2026 – Sep 2026)

- Shipped 30+ open-source app integrations (Google Drive, Slack, Zoom and more) to Pipedream's public component registry, handling OAuth auth flows, API pagination and error handling.
- Rewrote the instruction set for AI agent code reviews, tightening review quality across integration contributions.
- Designed and shipped a new Pipedream CLI command on my own initiative, owning it from design to release.

Klenty | Software Development Engineer · Chennai, India · Jul 2024 – Jul 2026

- Owned infrastructure and product features for Kubernetes-orchestrated microservices; secured CI/CD pipelines with HashiCorp Vault and NGINX.
- Architected Salesforce, Pipedrive and HubSpot integrations with domain-based fallback mechanisms, cutting API costs by 40% while holding 99.9% sync reliability.
- Redesigned the event-sourced Cadence system in TypeScript with publish gating and bulk-safe syncing, reducing changelog noise by 60% for 10K+ active users.
- Built an automated list-assignment system in Node.js using AI SDRs for prospect research and personalised email generation, boosting sales efficiency by 35%.
- Developed the Agent Messaging module with personalisation controls and meeting-link workflows, improving booking accuracy by 25% and engagement by 40%.
- Refactored legacy UI into modular React TSX components, improving page load times by 30%.

UrbanGround GmbH | Full Stack Engineer (Remote) · Berlin, Germany · Mar 2024 – Jul 2024

- Built a real-time rental platform from scratch on AWS with Node.js, Angular and MySQL, delivering 20+ REST endpoints and accelerating MVP launch by 6 weeks.
- Implemented multi-tenant authentication with Firebase and automated document processing with Google Cloud Vision.
- Published a cross-platform admin app on Google Play using React Native.

PK Innovatives | Full Stack Developer Intern · Chennai, India · Jun 2023 – Jan 2024

- Built a reusable Angular component library and REST APIs with sub-200ms response times, cutting development time by 25%.

Projects & Open Source

- **Zed (open source)**: Contributor to Zed, a high-performance code editor.
- [Corral](#): macOS clipboard manager that keeps copy history for one-click reuse.
- [Foglio](#): Local-first, all-in-one task and meeting manager.

- [Rewind](#): Developer productivity tool.
- **Developer CLIs**: Git Switcher for switching Git identities; Claude Account Switcher for seamless switching between Claude accounts.

Education

B.E. Computer Science Engineering | Panimalar Engineering College, Chennai · 2020 – 2024 · CGPA 9.24/10

Certifications

JavaScript Algorithms and Data Structures (freeCodeCamp) · React.js with Firebase (Udemy) · Programming in Java (NPTEL)
